

LUTHER BURBANK THIRD GRADE CURRICULUM UNIT

ACKNOWLEDGMENTS

This curriculum unit was an idea that was conceived and developed by Margaret Myers, a former Luther Burbank Home & Gardens (LBH&G) Board member and retired elementary school teacher. Larry Mitchell of the Sonoma County Office of Education offered his support in the early stages of the project. Paul Eelkema, current LBH&G Board member, continued overseeing the project with the assistance of Cathy Stevenson, Coordinator for LBH&G. Appreciation goes to Diane Cruz, LBH&G Administrative Assistant for assembling binders and Marilyn Boyd, LBH&G volunteer for her proof reading services.

Hard work and effort was put into creating and designing the curriculum by Katherine Gohl, teacher at San Miguel School. A collaboration was formed with Sonoma County Office of Education to align California Content Standards with the lessons. Sharon Janulaw, Science Specialist, assisted with this process by designing the template for the organization of the lessons and writing the lessons in the Science Unit. Nicki Lorenzo, History/Social Science Specialist, contributed to the Standards alignment. Don Russell, Director of Curriculum and Instruction at SCOE, oversaw this effort.
